POWERLIFTING FOR VALENTINA

Valentina is 4 years old and diagnosed with spastic quadriplegia cerebral palsy, epilepsy and a cortical visual impairment. She is nonverbal and nonmobile, but despite this, one of the happiest children you will ever meet. She always works hard at all of her therapies and wears her beautiful smile even on her toughest days. She attends the Early Learning Center at Meeting Street School. She really enjoys music, time in the pool, spending time with her older sister, her pet German Shepard, and cuddling her stuffed bunny.
